**TESTIMONY OF GENERAL COMMANDER CORY A. HOFSTAD**

DCMN Hofstad

The United States has been covertly attacked, sabotaged, and assimilated by “British royal family” members and associated agents of the United Kingdom.

Elizabeth Alexandra Mary II under the alias “Hillary Clinton” has taken illegal office at the United States Department of State. Her position was intentionally used to kidnap, traffic, and murder citizens of the United States government, military, local municipalities, and public institutions. Hillary has taken over several airports by killing and trafficking port personnel and replacing them with Serco airport management staff. Airports overtaken by Serco are used for international organ trafficking as in case of Seattle-Tacoma International Airport (Operation American Watchdog), or for sex trafficking as in case of Teterboro Airport or San Diego Airport (Jeffrey Epstein)

Charles Philip Arthur George and Henry Charles Albert David organize the replacement of American casualties with Serco agents who assimilate stolen identities and uniforms. Serco is being used to staff a franchised commercial trafficking network which spans international territories and populations.

Genentech has been assimilated by Serco and is currently operating as a wholesale organ market, accepting “sample” intake from high volume harvesters and black-market surgeons worldwide. The Genentech, Inc. campus in San Francisco Campus covers the expanse of a CIA facility which is used to breed, raise, and contain Human livestock for criminal processing and trafficking.

Pace Analytical is managed and staffed by Serco. Pace is a widespread and highly aggressive abduction, and human material hunter. Pace agents operate in the United States and “internationally in several countries”. A network of Pace labs manages independent organ harvesters and harvesting agencies throughout all 50 states.

Amarillo Biosciences, Inc. and Xiamen Weiyang Pharmaceutical., Ltd. operate as retail organ brokers for international sale to doctors, surgeons, and other living material “flesh” purchasers.

Henry Charles Albert David is managing a widespread human sex trafficking network through Pornhub and MindGeek. American Teenagers, college students, young mothers, wives, and family members are being targeted, kidnapped, raped, filmed, and paraded in public.

The Royal Family lives in America as the "Miller family". The members of this Miller family advertise full facial profiles and employment histories including "PornHub Employee December 13, 2019", etc. American sex trafficking victim's are given aliases such as "Renee Vanzandt" and forced to use emails such as [porn\\_star\\_9683@yahoo.com](mailto:porn_star_9683@yahoo.com) and [renaked8284@gmail.com](mailto:renaked8284@gmail.com) to advertise sexual slavery for their capturers.

Cartel Money from high level human trafficking operations are laundered through Bill and Melinda Gates of Washington State. Paul Allen has been targeted for assassination by Hillary Clinton and Bill Gates for cooperating heavily with Operation American Watchdog to clean up Washington State. While Paul Allen is still alive, his estate is unsecure and values of his liquid and investment capital are being used in a war against the free and sovereign population of Earth.

Serco has assimilated air traffic, military, law enforcement, judicial, community, economical, and geopolitical control over our existing species and an exponential rate which is unacceptable by the remaining legally contracted government population. As a continuity of government, a new militarized continuity of government shall commence. This offensive and defensive Multi-Domain Operation Command establishment shall be titled Operation Attack Dog (OAD).
